

CHARACTER MASKS CRAFT

SUPPLIES

- Yellow, Gray, and Blue Craft Foam
- Scissors
- Craft Knife (adult supervision needed)
- Black Paint Pen or Marker
- Elastic Cord
- Pencil and Paper
- Glue

INSTRUCTIONS

1. Start by sketching out the face of the character you are creating on a piece of scrap paper. Keep the design simple. Folding your paper in half while you draw can help keep things symmetrical.
2. Once you're happy with the outline of your character's face, cut it out and use that as a template to cut your craft foam.
3. Glue your foam pieces together and draw in details with a paint pen.
4. Use your craft knife to carefully cut out the holes for the eyes.
5. Poke a small hole in each side of the foam and add elastic cord so that your mask is ready to wear!
